Morton's Elementary Geography,

By ELIZA H. MORTON.

This book is the *handsomest and best Elementary Geography* published. It is neither antique nor extravagantly progressive. It is new and modern without being full of fads and fancies. It is beautifully and sufficiently illustrated, but is not merely a picture book to occupy a child's time when he *should* be at work with the text. The *pictures* are, however, geographical, instructive, and helpful. The *essential facts* of Geography are pre-ented accurately, clearly, and in an attractive and interesting manner. The *maps*, both physical and political, are one of the greatest features of the book, being of the highest grade in every respect. *Price, 60 cents.*

The Progressive Course in Reading—Five Books,

By Superintendent GEORGE I. ALDRICH, Brookline, Mass., and ALEXANDER FORBES, Chicago, Ill.

These Readers are *absolutely new* and of the *highest quality* in Subject-Matter and Arrangement; also in Gradation, Illustration and Mechanical Execution. They are *Ideal Text Books*, provided with valuable Keys to Pronunciation, and with Diacritical Marking, and abundant Drill Exercises.

PRICES:—First Book, 20 cents; Second Book, 30 cents; Third Book, 40 cents; Fourth Book, 50 cents (also in two parts, 35 cents each); Fifth Book, 60 cents (also in two parts, 40 cents each).

The Sight Reader (*80 pages, 15 cents*). This is an *ideal supplemental or review Reader* for primary pupils, particularly those using The Progressive Course in Reading, First Book; its vocabulary is confined to the words contained in the First Book.

The Scribner Educational List

OF NEW TEXT-BOOKS JUST PUBLISHED

THE FORMS OF PROSE LITERATURE

By J. H. GARDINER, Instructor in English at Harvard University. 12mo, $1.50 *net.*

This work consists of twenty carefully selected examples with an introductory analysis designed to be used in conjunction with Wendell's "English Composition," and other similar books. The suggestive scheme of the book accounts for Exposition, Argument and Criticism under the Literature of Thought, and for Narration and Description under the Literature of Feeling.

HISTORY OF EDUCATION

By THOMAS DAVIDSON, A.M., LL.D., author of "Aristotle and The Ancient Educational Ideal," "Rousseau and Education According to Nature," etc. 12mo, 300 pages, $1.00 *net.*

This book is designed for use in Normal Schools, Professional Teachers' Classes and by general students of the subject. The personalities and influences of men who are classed as "The Great Educators" become the centres around which the history is written and the progressive tendencies of each period are brought out with distinctness and force.

GENERAL HISTORY OF EUROPE

The great success which these two authors have attained in their two standard text-books for college use, "Europe in the Middle Ages" and "Modern Europe," is sufficient guarantee that this new book, prepared expressly for High Schools, will meet with the greatest favor.

ELEMENTARY PHYSICAL GEOGRAPHY

An Outline of Physiography by JACQUES W. REDWAY, F.R.G.S. 12mo, 380 pages. Elaborately illustrated with many colored maps and plates. $1.25 *net.*

The author is probably the best-known authority upon this subject in this country to-day. As the author of the "New Natural School Geographies" he is recognized not only as an authority but for his ability in presenting the subject to young students. The book is designed for use in High Schools, and promises to displace from use the present text-books on the subject.

THE HOWELLS STORY BOOK

A Collection of Stories for Young Children by WILLIAM DEAN HOWELLS, selected and edited by Mary E. Burt, and illustrated by Mildred Howells for the 12th volume in the "Scribner Series of School Reading." 12mo, 60 cents, *net.*

The Christmas stories of Mr. Howells, and many others in his inimitable, natural vein, are a fountain from which children derive the truest and keenest delight. Miss Burt has co-operated with Mr. Howells in having the stories appear in their most attractive light to the children, and the illustrations add much to the fascination they will have.

HERAKLES: THE HERO OF THEBES

And Other Heroes of the Myth. Adapted from the Second Book of the Primary School of Athens, Greece. By MARY E. BURT and ZENAIDE RAGOZIN. 11th volume in the "Scribner Series of School Reading." 12mo, 60 cents *net.*

While traveling in Greece, Miss Burt found the children of the Primary Schools reading these stories in the lower grades, the book being one used next above the primer. The interest was enthusiastic, and she brought home a copy of the book which she has now arranged as a second reading-book for our own schools.

The publishers will be pleased to give further information about these new books upon request.

ST. ANTHONY'S SCHOOL

FOR FEEBLE MINDED CHILDREN,

located at Nazareth P. O., near Kalamazoo, Michigan, is under the charge of the Catholic Sisterhood.

This Institution offers to educate in ordinary common school branches children who, by reason of extreme nervousness or backwardness in intellectual capacity, are fit for a private home rather than a larger public establishment.

It furnishes means of discipline, physical, moral and intellectual training, and instructs in usefulness all who are capable of such instruction, and endeavors to make happy by suitable custody and recreation all who may claim its care.

A large percentage are improved so as to become useful in assisting to earn their own living.

The care which trained Sisters for this work will give may be judged from their work in other charities.

The advantage of having children of this description in charge of thoroughly conscientious persons will be greatly appreciated by parents. Send for Prospectus, terms, etc. Address

The Cambridge School for Girls

Familiarly called
"The Gilman School"

"The learner does not want to be made a receptacle of other men's words and thoughts, but to be made a thinker of thoughts and a wielder of words himself."

The classes are small.
The laboratories are complete.
The buildings are sunny.
The playgrounds are ample.

The school aims to develop the best type of womanhood that refinement and intellectual training can produce The ideal is the highest, and no detail is too small for the personal attention of the Director, MR. ARTHUR GILMAN.

Each course is suited to the stage of the pupil's advancement, and not the pupil to the course.

The Resident pupils are provided with such careful and kindly attention as a mother desires for a daughter when away from home.

The place in which The Cambridge School is established possesses exceptional advantages for instruction and cultivation.

In the ninth census of the United States, Cambridge stands at the head of the list of cities arranged according to their healthfulness. Its beauty is well known. Its historic and intellectual pre-eminence is also familiar.

THE DURABILITY OF THE SOHMER.

The appreciation of the Sohmer piano, like a Tiffany diamond, never diminishes. Usage only tends to make it the more esteemed. A case in point: Wm. Semnacher, founder and head of the National Institute of Music, speaking of the Sohmer piano, five or six of which he has in use in his establishment, remarked: "I do not believe that any piano in the world can surpass Sohmer in durability and stay in tune quality. In my music room I have a Sohmer upright which has been in use for nearly six years, and it is as good as it was the day it came from the factory. It has seen very hard usage, too."

COMFORT FOR COOL DAYS.

There are many days in the late summer and early fall when the mornings and evenings are decidedly chilly. At such times and also on stormy days an oil stove will furnish the warmth required with a minimum of trouble. The Banner Portable Oil Stove is just the thing to have in summer homes for this purpose. The Plume and Atwood Manufacturing Company of Chicago and New York, who make these stoves, are also the makers of the famous Banner Oil and Gas Lamps for bicycles and carriages. Lamps and stoves bearing the name of "Banner" can always be relied upon to give satisfaction.

"SOROSIS."

Some months ago the manufacturers of the "Sorosis" shoe announced a story contest open to women only. The judges have selected from the nearly four thousand stories fifteen prize-winners, the first prize being $500 in gold. The "Sorosis" contest open to men closes September 1st. The first prize is also $500. Our readers are invited to send to Messrs. A. E. Little & Co., 67 Blake Street, Lynn, Mass., for particulars of the contest. They are also reminded that "Sorosis" shoes than which there are none better, can be obtained at the "Sorosis" stores and agencies in all the leading cities.
